## WORK EXPERIENCE – 7+ years

---

### **Hewlett Packard Enterprise (HPE)**

*Technical Specialist (Frontend)*

**Bangalore, India**

*July 2018 – October 2022*

- Core member of the user interface team for HPE GreenLake for Compute Ops Management (COM), a seamless software-as-a-service (SaaS) compute lifecycle management experience from edge to cloud. Worked on building fully responsive, accessible web pages and components.
- Developed the user interface for HPE InfoSight for Servers which has ~500k servers connected to the HPE backend. This product combines the machine learning and the predictive analytics of HPE InfoSight, with the health and performance monitoring of Active Health System (AHS) and HPE iLO to optimize performance, predict, and prevent problems, and reduces development and support costs by \$8M per year.
- Designed, developed, and maintained the user interface for the HPE iLO Amplifier Pack, an on-premise aggregator with about 40,000 downloads since July 2021.
- Established, designed, and developed the user interface for Sentinel Rule Engine which is the Next-Gen Compute Analytics Rule Framework for HPE InfoSight for Servers.
- Maintained DRY codebase and consistent user interface with reusable React components.
- Experience in designing and developing SPA (Single Page Applications) for enterprise products and building software keeping accessibility in mind.
- Actively participate in the full software development lifecycle including planning, defining the scope, designing, coding, testing and implementation.
- Experience with Agile methodologies and possess strong communication and good problem-solving skills.
- Develop applications with good usability principles, cross-browser compatibility, web security (XSRF, cross-site scripting defense), accessibility, and HTML document architecture.
- Ability to acclimate to new technologies and situations with the vision of providing the best customer experience.
- Adept at contributing to a highly collaborative work environment.
- **Environment:** React (Hooks, State Management), Redux, Axios, Webpack, Internationalization (i18n), JavaScript, Node.js, HTML, CSS, Bootstrap, Grommet, Styled Components, SASS, LESS, Tailwind CSS, jQuery, Figma, Jest, WebSocket, REST API, Swagger, Docker, Kubernetes, Grafana, AWS, Elastic Search, GitHub, XML, JSON, Agile Methodologies, Jira, Jenkins (CI/CD), Responsive Web Design.

### **Cognizant Technology Solutions (CTS)**

*Programmer Analyst*

**Bangalore, India**

*November 2014 - July 2018*

- Designed and developed User Interface for compliance management solution products for Wells Fargo and KeyBank clients.
- Experience in SDLC of business process development.
- **Environment:** IBM BPM Process Designer v8.5, HTML, JavaScript, jQuery, AJAX, Bootstrap, CSS.

## EDUCATION

---

**Visvesvaraya Technological University**

*Bachelor of Engineering*

**India**

*2010 - 2014*

## AWARDS

---

- Foundation Engineering Award for Innovation – Stage and Deploy strategy for scaled updates of servers.
- OSM STAR - Q1 2022 for the design and development of the Next Gen Compute Analytics Rule Framework - Sentinel
